BERRY POWER. LOCAL. SUPERFOOD. OUR KLAISTOW BLUEBERRIES

Dear Guests,

The asparagus season has come to an end, which means it's time for our next favourite season – blueberry season.

Although blueberries are available almost all year round these days, their natural season is right now, during the summer. That's when they're freshly picked and brought straight from our fields to you – locally grown and without long transport routes.

Why do we love blueberries so much?

Our fresh Klaistow blueberries:

- are exceptionally flavourful and crisp, thanks to the short journey from our fields to your table.
- are a true superfood. They contain a variety of vitamins, including vitamin C. Depending on the variety and ripeness, you would need to eat around 500 g of blueberries to meet your daily vitamin C requirement from blueberries alone.
- get their deep blue colour from natural plant pigments called anthocyanins. These antioxidants may help protect your body's cells from oxidative stress.
- are delicious in every way – enjoyed fresh on their own, with yoghurt, sprinkled over muesli, or simply served chilled as a refreshing summer snack.
- freeze beautifully. Stock up during the season and enjoy them later in smoothies, cakes, desserts or as part of your breakfast.

If you'd like to pick your own blueberries straight from the bush, don't miss our Pick-Your-Own Blueberry Fields – a wonderful summer outing for the whole family.

Enjoy blueberry season and have a wonderful summer with us here in Klaistow!

WITH WARM REGARDS
ANTJE UND ERNST-AUGUST WINKELMANN
